

Grant of Request for Retention of Rights by Contractor Employee and License to the Government

CLAUSES

This agreement includes the following: a Preamble; The Invention clause identifying the Subject Invention; a Determination clause; a Grant of Request for Greater Rights clause executed by an authorized NASA official; and an attached License(s) to the Government (NASA Form 1604) executed by each inventor to whom this Grant applies.

PREAMBLE

In the performance of work under a contract between the National Aeronautics and Space Administration (NASA) and the Contractor identified below, an invention was made which is subject to 35 U.S.C. § 200 et seq. (P.L. 96-517) and regulations promulgated thereunder (37 CFR Part 401), both incorporated herein by reference. The inventor(s) have requested retention of rights in the invention as authorized by 35 U.S.C. § 202(d) and the Federal Acquisition Regulations (FAR) at paragraph 27.304-1(c).

DETERMINATION

The National Aeronautics and Space Administration has DETERMINED that the invention identified above is a Subject Invention as defined at 35 U.S.C. § 201(e), and in the NASA FAR Supplement (NFS), at clause 1827.301, and that the principal rights to the Subject Invention may be retained by the Contractor upon an election to retain title under the provisions of 35 U.S.C. § 202(a) and FAR 27.302(b);

That the Contractor has indicated it will not elect to retain title, or, the time in which to elect has expired;

That the inventor(s) as indicated above, and to whom this DETERMINATION and the following GRANT OF REQUEST FOR GREATER RIGHTS are applicable, (hereinafter said Inventor(s)) has/have, under the provisions of 35 U.S.C. § 202(d), requested retention of rights by him/her/them in the Subject Invention, subject to the provisions of the statute and regulations as set forth in the PREAMBLE; and

That the NASA has consulted with the Contractor in the request for retention of rights by said Inventor(s).

GRANT OF REQUEST FOR GREATER RIGHTS

WHEREAS, the GRANT of this request for greater rights by NASA to said Inventor(s) recognizes the Applicability provisions of FAR 27.101 and the policy of FAR 27.302 regarding the mutual benefits flowing from the granting of such requests. Further, the GRANT of this request recognizes the execution of a License to the Government (NASA Form 1604) by each of said Inventors(s), the said License(s), attached hereto and a part of this agreement, being effective upon the execution of the GRANT by NASA.

NOW THEREFORE, the U.S. Government, as represented by the NASA Associate General Counsel (Intellectual Property), does hereby GRANT the request of said Inventor(s) for retention of title to the above identified Subject Invention, in the United States of America and in any foreign countries* identified below (if none, so state).

The GRANT of this request for retention of title is subject to the terms, conditions, and reservations as set forth in: Chapter 18 of title 35 U.S.C. - Patent Rights in Inventions Made with Federal Assistance, as implemented at 37 CFR Part 401 (see in particular, 35 U.S.C. §§ 200-204 and paragraphs (c)(3), (d), (f), (h), (i), (j) and (k)(1) of the clause at 37 CFR 401.14 (a)); FAR Part 27.3 (see in particular, 27.302 and 27.304-1(g)); NFS Subpart 1827.3 (see in particular, 1827.302); and FAR contract clause 52.227-11 as modified by NFS clause 1852.227-11.
